Can you offer me any alternate dates in July for Project review? Only need 2 am hours. **[Bugg, Joy J.]** 25, 29, 30 ? (Oshkosh fly-in!)

Also - do we have any flexibility with June dates? **[Bugg, Joy J.]** 24, 27, 28

Turns out Ferrucio Gadani is having a seminar June 25-26 that may create significant conflicts. Not yet sure - just want to know what I'm up against as far as scheduling.

Thanks,
Val

I am on vacation the week of July 22.
Sorry
Ken

Subject: Remaining 2002 WSA Project Reviews

Dear project leaders:

As was discussed during the project review last Friday, we will complete one additional cycle of project reviews this year before we begin the planning cycle for 2003. To that end, the scheduled project reviews for the

remainder of 2002 are as follows:

May 21 (8:30 am - 12:00 noon, Richmond time) (Program areas covered: Cancer, CVD, COPD)
June 25 (8:30 am - 11:30 am, Richmond time) (Program areas covered: Repro, ETS, Smoke Exposure)
July 23 (8:30 am - 10:30 am, Richmond time) (Program areas covered: Acceptability Assessment, Harm Reduction Guidance/Evaluation)
August 27 (8:30 am - 11:30 am, Richmond time) (Program areas covered: Clinical Testing, Non-Clinical Testing/Research, Communication)

Please make a note of those dates in which your projects are being reviewed and hold those dates on your calendars. Details confirming agenda and location will be circulated closer to the actual review dates.

For reference, I have attached the current list of projects organized by area.

If any questions, please let me know.

Thanks and kind regards,
Valerie
